Dr. Chris Cameron is a certified Periodontist and a Fellow of the Royal College of Dentists of Canada. He is an active member of the Canadian Academy of Periodontology, the American Academy of Periodontology, the Canadian Dental Association and the Nova Scotia Dental Association.

Dr. Cameron graduated from Dalhousie University, Faculty of Dentistry in 2004, receiving the American Academy of Periodontics award for outstanding performance in periodontics.

Following two years of general dentistry practice in Halifax, he continued his dental education by attending in 2007, a residency program in periodontics at the University of Manitoba, Faculty of Dentistry. Graduating in 2010, he completed a Masters of Dentistry with research focused on a novel method of training periodontics residents in surgical procedures.

In addition to teaching part time in the Graduate Periodontics department at Dalhousie, Dr. Cameron works full time in private practices in Halifax and Truro, Nova Scotia.

Dr. Kevin G. MacDonald pursued a Bachelor of Science degree from Acadia University, prior to completing his Doctor of Dental Surgery Degree at Dalhousie University where he graduated with Distinction and was awarded the University medal for Dentistry as the top graduating student.

After graduation, Dr. MacDonald worked in private general practice for 1 year in Moncton, New Brunswick before returning to the University of Toronto to complete his post-graduate studies in Periodontics. Dr. MacDonald received a Masters of Science in Periodontics from the University of Toronto in 2006 and also became a Fellow in the Royal College of Dentists of Canada in the same year.

He is the founder of the Greater Saint John Dental Implant Study Club, a member of the American Academy of Periodontology, the Canadian Dental Association and the International Team for Implantology. He is also the past president of the Greater Saint John District Dental Society and has lectured extensively in the Atlantic Provinces on both periodontics and dental implant therapy.

Dr. MacDonald maintains a full-time private practice in Quispamsis, New Brunswick limited to periodontics and dental implant therapy. He is also a part-time faculty member in the Graduate Periodontology Program at Dalhousie University's Faculty of Dentistry and an examiner for the Royal College of Dentists of Canada.

Dr. Tanya Cook completed both her Doctor of Dental Surgery (DDS) and Masters of Applied Science (MAsc) combined with a Diploma in Prosthodontics from Dalhousie University. After 10 years of full time private practice as a prosthodontist, she chose to pursue clinical teaching at Dalhousie University.

As a full time instructor, she is involved heavily in the teaching of Removable Prosthodontics, in both the pre-clinical second-year course, as well as third and fourth year clinical blocks. In addition, she is very involved in the implant prosthodontics program and the clinical instruction of fixed and implant prosthodontics. In addition, Dr. Cook is in private practice one day a week at Ocean Periodontal in Halifax, NS and Truro, NS.
