# THE WHAT, THE WHEN, AND THE HOW OF SOCKET PRESERVATION

JANUARY 19TH, 2019

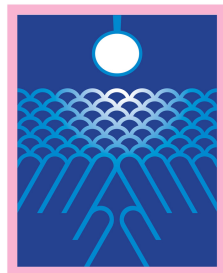

7:30AM - 4:00PM  
Breakfast and lunch  
included

Dentist: \$799 + HST  
(After January 6th \$899 +HST)  
Support staff: \$250 +HST

**Purpose:** To explore the indications for socket preservation and to learn basic hands on skills for a predictable outcome

**About:** One of the most important factors for a successful implant is the presence of adequate bone and soft tissue. This course will review the biology of the wound site to explain the rationale behind bone grafting procedure immediately following extraction of the tooth. It will involve discussion relating to the numerous products available and outline the indications for their use. A detailed hands-on program will follow where participants will practice flap design, bone grafting, membrane placement and suturing on study model and pig jaw.

**Perio by the Ocean**

3rd Floor, Sim Lab  
Faculty of Dentistry, Dalhousie  
5981 University Ave, Halifax, NS

## **SPEAKERS**

**DR. ADITYA PATEL**  
**DR. ANIL SACHDEV**

**JANUARY 19TH, 2019**
